

## 2019-2020 Essential Standards Unpacked

**Grade: 4th Grade**

**Subject: Math**

**Updated: June 17, 2019**

| ESSENTIAL STANDARD  | VERBS                               | LEARNING TARGET VERB (STUDENT ACTION) + STANDARD  | PARENT/KID FRIENDLY VERSION   |
|---|-------------------------------------|---|---|
| 4.2 B<br>Represent the value of the digit in whole numbers through 1,000,000,000 and decimals to the hundredths using expanded notation and numerals.                                     | Represent<br><br>Using              | *Represent the value of digits to 1,000,000,000.<br><br>*Represent the value of decimals to the hundredths place.<br><br>*Use expanded notation.  | My child will be able to show the value of digits up to 1,000,000,000 and decimals to the hundredths place.<br><br>Ex: $452,638.97 = 400,000 + 50,000 + 2,000 + 600 + 30 + 8 + 0.9 + 0.07$                    |
| 4.2 G<br>Relate decimals to fractions that name tenths and hundredths.  | Relate                              | *Relate decimals to fractions that name tenths and hundredths.  | My child will be able to show how decimals and fractions are equal.<br><br>Ex: $7/10$ (seven tenths) = 0.7<br>$37/100$ (thirty-seven hundredths) = 0.37   |
| 4.3 E<br>Represent and solve addition and subtraction of fractions with equal denominators using objects and pictorial models that build to the number line and properties of operations. | Represent<br><br>Solve<br><br>Using | *Represent addition and subtraction of fractions with equal denominators.<br><br>*Solve addition and subtraction problems with equal denominators.<br><br>*Use objects and pictorial models, include number lines and properties of operations. | My child will be able to add and subtract fractions with denominators that are the same using pictures and models.  |
| 4.4 H<br>Solve with fluency one- and two-step problems involving multiplication and division, including interpreting remainders.  | Solve<br><br>Interpreting           | *Solve one and two-step problems involving multiplication and division.<br><br>*Interpret remainders.   | My child will be able to find the answer to one or two-step multiplication and/or division problem.<br><br>My child will be able to understand the meaning of a remainder (the amount left over in division). |
| 4.5 A   | Represent                           | *Represent multi-   | My child will be able to  |

| Represent multi-step problems involving the four operations with whole numbers using strip diagrams and equations with a letter standing for the unknown quantity.   | Using                     | step problems involving the four operations with whole numbers.<br><br>*Using strip diagrams and equations with a letter standing for the unknown quantity.  | find the answer to multi-step problems by adding, subtracting, multiplying, or dividing using picture models.<br><br>Ex: $75 = 35 + P + P$ where $P = \text{points}$ .   |       |      |        |   |              |   |   |              |    |   |              |    |
|--|---------------------------|--|--|-------|------|--------|---|--------------|---|---|--------------|----|---|--------------|----|
| 4.5 B<br>Represent problems using an input-output table and numerical expressions to generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. | Represent<br><br>Generate | *Represent problems using an input-output table and numerical expressions.<br><br>*generate a number pattern that follows a given rule representing the relationship of the values in the resulting sequence and their position in the sequence. | My child will be able to show the number pattern in an input-output table.<br><br>Ex:<br><table border="1" data-bbox="993 548 1326 764"> <thead> <tr> <th>Input</th> <th>Rule</th> <th>Output</th> </tr> </thead> <tbody> <tr> <td>1</td> <td><math>1 \times 7</math></td> <td>7</td> </tr> <tr> <td>2</td> <td><math>2 \times 7</math></td> <td>14</td> </tr> <tr> <td>t</td> <td><math>T \times 7</math></td> <td>35</td> </tr> </tbody> </table><br>My child will be able to make a pattern using a given rule. | Input | Rule | Output | 1 | $1 \times 7$ | 7 | 2 | $2 \times 7$ | 14 | t | $T \times 7$ | 35 |
| Input  | Rule                      | Output   |  |       |      |        |   |              |   |   |              |    |   |              |    |
| 1  | $1 \times 7$              | 7  |  |       |      |        |   |              |   |   |              |    |   |              |    |
| 2  | $2 \times 7$              | 14   |  |       |      |        |   |              |   |   |              |    |   |              |    |
| t  | $T \times 7$              | 35   |  |       |      |        |   |              |   |   |              |    |   |              |    |
| 4.5 D<br>Solve problems related to perimeter and area of rectangles where dimensions are whole numbers.  | Solve                     | *Solve problems related to perimeter and area of rectangles where dimensions are whole numbers.  | My child will be able to find the perimeter and area of rectangles.  |       |      |        |   |              |   |   |              |    |   |              |    |
| 4.6 D<br>Classify two-dimensional figures based on the presence or absence of parallel or perpendicular lines or the presence or absence of angles of a specified size.  | Classify                  | *Classify two-dimensional figures that have a presence or absence of parallel lines, perpendicular lines, or angles of specified size.   | My child will be able to identify 2-D shapes by using knowledge of parallel lines, perpendicular lines and angles of a certain size.   |       |      |        |   |              |   |   |              |    |   |              |    |
| 4.8 C<br>Solve problems that deal with measurements of length, intervals of time, liquid volumes, mass, and money using addition, subtraction, multiplication, or division as appropriate.   | Solve<br><br>Using        | *Solve problems that deal with measurements of length, intervals of time, liquid volumes, mass, and money.<br><br>*Use addition, subtraction, multiplication, or division as appropriate.  | My child will be able to add, subtract, multiply, or divide: length, time, liquid volumes, mass (weight), or money.  |       |      |        |   |              |   |   |              |    |   |              |    |
| 4.9 A  | Represent                 | *Represent data  | My child will be able to   |       |      |        |   |              |   |   |              |    |   |              |    |

|   |  |  |   |
|---|--|--|---|
| Represent data on a frequency table, dot plot, or stem-and-leaf plot marked with whole numbers and fractions. |  | on a frequency table, dot plot, or stem-and-leaf plot marked with whole numbers and fractions. | read, make, and solve problems using frequency tables, dot plots, or stem-and-leaf plots. |
|---|--|--|---|
